There is a lesson in politics to be drawn from the brief career of Butlerism in Mas sachusetts. With no higher aim than suc cess the Democratic party, in a State which take up with a man who had fought it for twenty years, and for as long a time had it as he abuses everything and everybody in opposition to him.

some great principle or to establish good government where bad bad ruled. It was the capture of a great political organization by one man, and the voluntary prostration of that organization before that one man.

The bargain at its best promised to the Democratic party mere success and—spoils. Butler was no more a Democratic party as a loathsome thing. The De nocratic party had no more respect for Butler than when it was branding him as a thief and a beast. But the two came together on common ground—both wanted in the proceedings. gether on common ground-both wanted to win, and in this sense both go down to-

marvelous ingenuity to dishonor his State. If the wrongs which he held up to the world had been facts instead of inventions he would have deserved the thanks of the people of Massachusetts. But with him reform was a mere pretext, a rallying cry by which he hoped to strengthen himself for re-election and a grand assault, after the manner of Tilden in 1876, on the Damo cratic national convention. Finding him self in a tight place he appealed to the worst there is in Massachusetts to hold him in office for another term. For indecency it is doubtful whether the like of his per sonal campaign has ever been seen in thi country. He put upon himself no restraint whatever. He rioted in loose conversation, and debesed himself to reach the most debased. It was a strange sight to see in such a commonwealth as Massachu setts. But Massachusetts has rebuked But ler and all that, and handsomely redeemse As a political Boss Butler will long b

remembered as the prince of political Bosses. In his ragged battalions there was no will but his own. By accepting him as leader he had made the Democratic party in Massachusetts confess that it was with out conscience or self-respect, and he kicke I and cuffed it around as though it had been an ill-favored dog. For the time the Democratic party in Massachusetts was swallowed up in Butler. What have Massachusetts Democrat

gained by their year of Butler? The satisfaction of defeating the Republicans, and some patronage. That is all, and soon all that will be as a tale that is told. Butler their triumphant strength, has proven their overwhelming weakness. Their party is beaten, disorganized and disgraced. Those "better element" Democrats who stood out will hesitate sometime before delivering themselves up to the men who are respon sible for the Butler business, and the Butler men are the bulk of the Democratic party weak, and the weak are strong enough to make infinite trouble.

About the only partisan comfort that s Massachusetts Democrat can get out of the situation is that Massachusetts is a Repub-

over at the Oakland Mole yesterday morning, owing to the trial of a new patented improved self-propelling truck, invented which the inventor claims is to revolution ze the question of freight transportation

but otherwise appeared to take no interest in the proceedings.

The patentee explained that his truck was so constructed that all you had to do was to hold it up, run it about five miles by mule power, during which the movement of the axles, operating on powerful springs, would store up power enough to propel the load fifty miles fort'er without other propulsion. He then invited the company to step on the truck while he started up the mule for a spin out to Brooklyn.

summons to progress with a sigh, but didn' budge. Bazembee then hammered th budge. Bazembee then hammered the brute with a shingle, but save opening his sound oye the mule failed to respond. Then Bazembee began to get profane, and whacked the animal over the ribs with a brake handle. After which Mr. Crocker held his cigar light against the sleeping beauty's tall, while Governor Stoneman emptied his flask of Sacramento whisky over a sore spot on its back. As all this was of no effect, and as Bazembee had become particularly exasperated by the suggestion on the part of the spectators that he had better hitch a locomotive to the mule, he determined upon a plan that would arouse the obstinate quadruped or kill him. He procured a pickax from a coal breaker and began to dig the animal in the rear with that energegic instrument. This seemed to attract the mule's attention. in the rear with that energetic instrument. This seemed to attract the mule's attention. With one grand comprehensive kick he fired the truck, passengers and all into the bay, and immediately went to sleep again. They say that while the wet and disgusted crowd were returning to the city, the exteemed patentee swore in a mauner that stopped the machinery three times, and made the people on shore think that something had busted about the foghorn down at the heads.
